Good tyres. Good deal.

# Exceptionally good in all driving conditions

## High Mileage Logo

## High Mileage

### Feature:

- A wide, flat contour with a large number of pitches and sipes

### Effect:

- Even pressure distribution and reduced block deformation on the ground contact area

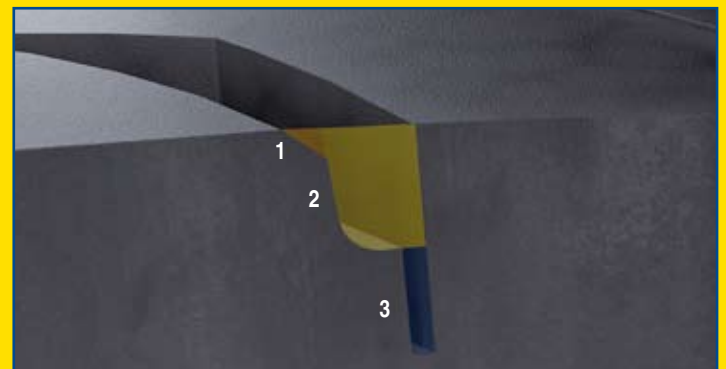

### Benefit:

- Higher mileage thanks to reduced and even wear

## Three-level groove

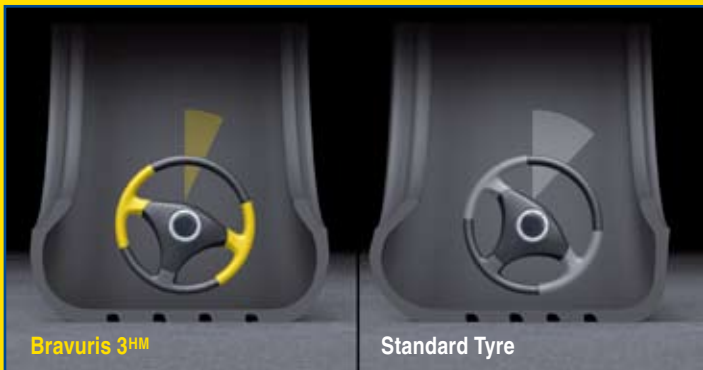

- 1 Chamfered edge at tyre surface
- 2 Wide groove structure allows high water absorption and improved wet handling
- 3 Finned body improves wet braking because gripping edges interact with the road surface

# More safety for frequent drivers

The Bravuris 3<sup>HM</sup> is a well-balanced tyre that perfectly combines greater mileage with confident handling in all driving situations, offering extraordinary value for money.

## Dry handling

### Feature:

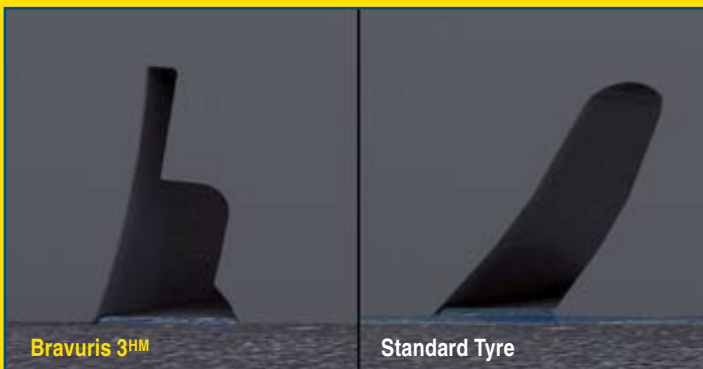

- High lateral stiffness thanks to closed shoulders with macro-blocks

### Effect:

- Wide center and intermediate ribs support the transference of side forces at narrow wheel angles

### Benefit:

- Precise handling and good directional stability on winding roads

## Wet braking

### Feature:

- Improved road surface contact thanks to a high number of grip edges due to sipes and a high pitch count number

### Effect:

- State-of-the-art compound guarantees an improved grip on wet surfaces

### Benefit:

- Short wet braking distances
